

How Much Is Employee Stress Costing You?

Calculating The Cost of Financial Stress in the Workplace

Financial wellness and education can protect companies from the corrosive effects of employee financial stress. By helping to lower turnover, increase productivity, and deepen employee loyalty, companies can strive to improve their bottom line. Regularly assessing and addressing the financial wellness of employees can be a preventive measure that can limit the negative impact of financial stress on the workplace.

IS THE SOLUTION WORTH THE PRICE?
Calculating the cost of financial stress on your company will help you decide.

Find out how much financial stress is costing your company with this **CALCULATOR**.

COST #1: Higher Rate of Turnover

Financially stressed employees are twice as likely to be looking for new jobs, according to a recent survey. Since the average cost to recruit and train a new employee is 50% to 75% of the departing employee's wages – and that doesn't include lost institutional knowledge – higher turnover can hurt the bottom line. Here's an example showing a simple way to estimate turnover cost.

AVERAGE SALARY: **\$68,000**
RECRUITING COST: x **0.50**
(50% of departing employee's wages)
COST OF TURNOVER: = **\$34,000** per new hire

Depending on the financial wellness program, lowering turnover by just one employee a year may cover the cost. How much could your company save by reducing turnover?

COST #2: Productivity Loss

Inflation has amplified financial stress. Some workers have tapped emergency savings accounts, worked more hours and taken hardship withdrawals from retirement plans to make ends meet. More than half (55%) of financially stressed workers say they spend three or more work hours on personal financial issues each week.¹ For a typical company with 25 employees, the quarterly cost of financial stress may be:

AVERAGE HOURLY WAGE:		\$32
LOST WORK HOURS/MONTH:	x	12
COST OF LOST WORK HOURS:	=	\$384
# OF DISTRACTED EMPLOYEES:	x	8
LOST PRODUCTIVITY COST:	=	\$3,072 per month

The Bottom Line: Financial Wellness Programs Work

Employers said financial wellness programs:³

84%

**REDUCED
EMPLOYEE
TURNOVER**

81%

**ATTRACTED
HIGHER QUALITY
CANDIDATES**

80%
