CIRCLE THE SMALLEST BALANCE.

Then focus on the smallest debt and pay it off as quickly as you are able.

TIP: Pay more than your minimum payment – even if it's only \$10. Every bit counts!

Once the first debt is paid off, use its monthly payment and **roll that amount** into the next debt's monthly payment. Keep repeating this strategy (example: take Debt A & B's monthly payments once they are paid off and use them to help pay off Debt C, etc.).

Once you start tackling your debt, it's time to start saving – and your dollars can add up fast!

Each dollar saved is a step in the right direction towards a brighter financial future.
